Purpose: Provide an overview of the 40 ID missions, history and future

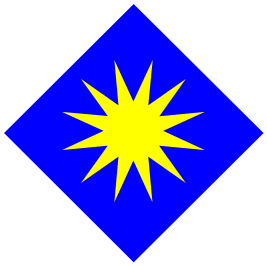

Mission Statement

40 ID: O/O, mobilize, **deploy worldwide to provide mission command for operational forces** IOT defeat enemy forces. Redeploy. O/O, provide mission command as **Dual Status HQs and JFLCC for California** Civil Support Operations.

1-185 AR, NTC 2007

Commander's Intent TY 16 (1 of 2)

Purpose: Everything we do is training. We will **maximize readiness for combat and civil support operations** through **multi-echelon training to Army standard**, while taking care of Soldiers and their Families. The Unit Status Report (USR) is our metric for assessing progress; Personnel Readiness is the Center of Gravity. Battle-roster to sustain 50% or better stabilization of all elements creates the foundation. We will Mission Command (MC) our ALIGNED/OPCON brigades by coordination, synchronization, support and resourcing their plans to achieve and sustain combat-ready units as resources permit. State Military Support to Civilian Authority (MSCA) CONPLANs, will be exercised and validated to **ensure we can meet our State missions**. I will accept risk by realistically narrowing our training focus to the time and resources available to sustain the standard.

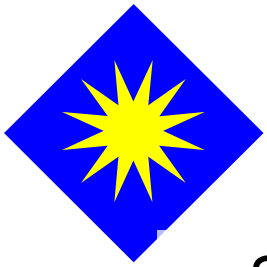

Commander's Intent TY 16 (2 of 2)

Key Tasks:

- Achieve respective USR aim points per ARFORGEN cycle with Priority of Personnel, Supply, Readiness and Training
- Our **METL focus is Conduct Tactical Deployment & Redeployment Activities (ART 1.1.2) & Conduct Mission Command (ART 5-0)**
- Focus on our Key Collective Tasks (KCT) for TY16 as the metric for METL and Civil Support proficiency
- Execute all GREEN Cycle training events using a **Multi-echelon approach to maximize resources and exploit opportunities**
- Achieve and sustain NLT 50% stabilization for crews, sections, platoons, company; & battalion and above staff sections
- **Convert to the FARG 2 MTOE as soon as possible**, once approved

End State: 40ID and ALIGNED/OPCON brigades have met or exceeded ARFORGEN USR standards and are postured for deployment by the end of their respective READY year for Federal mobilization; and within the Adjutant General's directed timeline for State deployments.
